**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Herring 2,568,628.

Regarding claim 1, Herring '628 discloses an underfloor storage structure for a vehicle (1) comprising a floor panel which includes a concave portion (6) as a storage space, and which partially covers a port of the storage space; a rotatably tray (8) disposed in the storage space; and at least one lid (4) for selectively closing the remaining portion of the port of the storage space.

***Allowable Subject Matter***

3. Claims 2- 8 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

4. The following is a statement of reasons for the indication of allowable subject matter:

The recitations of the specific features of the underfloor storage structure in claim 2 including especially the construction of the second lid which is provided in the first lid, and whose front edge is made liftable is not taught nor is fairly suggested by the prior art of record.

The recitations of the specific features of the underfloor storage structure in claim 7 including especially the construction of the resin tray body sandwiched between the support element and the backing plate is not taught nor is fairly suggested by the prior art of record.
